Stops Suspended – Almondbury**Stop Added - Aspley**

A snow day will be declared on our web site and by Text Message by 07:00. When a snow day is declared passengers are asked to wrap up warm as road conditions will cause delays. The buses will aim to depart from the first stops indicated on time. Please make your way to the nearest available stop. Buses will accept any current pass colour on Snow Days. Make yourself visible to the driver as the approach the stop. Unless you receive a message confirming cancellation the bus will be on its way.

If roads are expected to clear quickly a delayed start may be announced. On a late start day the buses will run on the Snow Day routes. You will be given at least 30 minutes notice of the late start time. The service will be cancelled if not started by 09:30

When the morning run is cancelled due to severe weather the afternoon run is also cancelled, even if the road conditions have improved.

Midday snow may result in school closing early. The buses will return at an earlier time and you will be advised by Text of the intended time of departure from school.

The most up to date information will always be posted on our web site first and then messages sent out by Text. Further updates will then be posted on the web site if other delays are expected.

Items in Red are changes to the usual Timetable**Passengers without a Travel Pass will not be allowed on the bus**
